WASTE OF NATURAL RESOURCES.

By Professor W. J. McGEE of the Department of Agriculture.

THE first principle of mankind in regard to natural resources was the right of every family to a habitation, taking with it the privilege of drawing on streams, fields and forests for subsistence. This principle with us has been outraged, and our resources have been WITHDRAWN FROM THE COMMON MAINTENANCE OF THE COMMON PEOPLE AND PLACED TO THE GREED OF THE FEW.

THE SQUANDERING OF THE COUNTRY'S NATURAL RESOURCES WILL IF CARRIED FAR ENOUGH COMPROMISE THE PERPETUITY OF THE RACE.

The natural wealth of the country will first be affected, creating a condition of NEED which it would be impossible to remedy in time to prevent a DISINTEGRATION OF THE TIES, or a portion of them, which bind people with common ideals and hopes and intended to enjoy the same privileges and emoluments.

WE CAN'T DO JUSTICE TO PANAMA.

By LESLIE M. SHAW, Former Secretary of the Treasury.

WE ARE BUILDING THE PANAMA CANAL TO AID THE COMMERCE OF THE WORLD, AND EVERY NATION WILL BE ABLE TO USE IT, BUT WE HAVEN'T GOT THE SHIPS.

It is A LOSS NOT TO HAVE A MERCHANT MARINE. We have a wonderful foreign commerce. One-seventh of the international commerce goes from here and one-ninth comes here. We have the greatest staples in the world—corn and cotton. This is their home. But we have to send our cotton to Europe to be manufactured, and then it is brought back here. Nearly all of this carrying is done by EUROPEAN SHIPS.

If many people will look over 10 years old expense books, they will account in part for high cost of living. Where they rode in the day coach and bought ready made clothes then, it's the Pullman and the tailor now.

Bradstreet says high prices are the highest ever. The worst of it is, it leads working people to buy inferior goods as they can't spend more money.

One of the best ways to save money is to read the home newspaper thoroughly for the bargain news from home merchants.
